

Skantfas

Vivid 4x300x600 mm

Skantfas Vivid 4x300x600 small-formatted slates are an economical, durable and environmentally friendly solution for all types of facades - also in building renovation. These modern fiber cement panels have a lively surface and are coated with an opaque, water-based acrylate coating. They therefore meet all the requirements for contemporary architecture.

Already cut-to-size and with color-coated edges allow installation with high precision. Skantfas Vivid 4x300x600 are available in an extremely diverse color palette, which sets almost no limits to your design requirements and therefore always make your projects look special.
