

# Skantfas Vivid

This façade board offers limitless opportunities for designers to implement magnificent and unique façades. The available colour range is extensive, which enables achieving exactly the result that is aimed for.

In addition to the Skantfas color chart, Skantfas Vivid is available in nearly all shades of the NCS-S, RAL, and Tikkurila Façade 760 color collections. Also, the edges of the boards always come in the same shade as the surface when treated. Skantfas Vivid is a carefree and safe solution, as it does not contain any harmful substances that are dangerous for the environment. We only use environmentally friendly, water-based paints in our process.
